EAGLE WORKPLACE

Recommended For: Doctors, Retail Workers, any Indoor Activity or Job.

The Eagle Workplace isn't just another progressive lens. It's focused on giving optimal vision in an indoor setting. Since the patient doesn't need a huge distance vision in this setting, the lens is designed to enhance the intermediate and near zones. This is ideal in the settings similar to those of many health workers. They may need a little bit of distance to walk between rooms, but the majority of their time is face-to-face with a patient (intermediate) or reading /writing in charts (near).

If you spend most of your day at an indoor job, why not have a pair of lenses customized for it?

Far ★★☆☆☆

Intermediate ★★★★☆

Near ★★★★☆

-20.00 to +12.00

ADD
+0.75 to +4.50

CYLINDER
0.00 to -12.00

PRISM
0.00 to 7.00

Exact power range availability will vary depending on prescription, material, and frame measurements. Full power range not available in all materials

FITTING HEIGHTS
18mm

Only one fitting height available, as this lens requires a certain amount of room to be able to offer the patient superior intermediate and near vision.

FEATURES

Ideal for Indoor Work Places
When inside, you don't need a great distance field of vision, since you mostly are only ever looking about 10 to 15 feet away. This lens gives enough distance to be able to see across a room or down a hallway, but focuses on the intermediate and near. This makes it ideal for any tasks that involve primarily: dealing with people, using a computer, and reading.

Recommended For

- *Healthcare Workers (Doctors, Nurses, etc.)*
- *Administrative Assistants*
- *Retail Environments*
- *Teachers*
- *Lawyers*
- *Librarians*
